Rossier Classroom Touch Lighting Systems

Benefits:

By dimming the lighting bank closest to a projector, the projected images will appear brighter to the classroom audience.

With the remainder of room lights turned on, students can still see note-taking devices.

*** There is plenty of light in the room for safe entry and exit of the classroom. ***

Arrange the classroom environment

Locate the lighting control touch panel:

The lighting control touch panel is mounted to the wall near the presentation lectern.

Touch the screen to activate the system.

On the touch panel home screen, turn all lights ON/OFF by touching the ALL ON and ROOM OFF corresponding button.

Select “Adjust” to dim the individual lighting banks.

Arrange the classroom technology

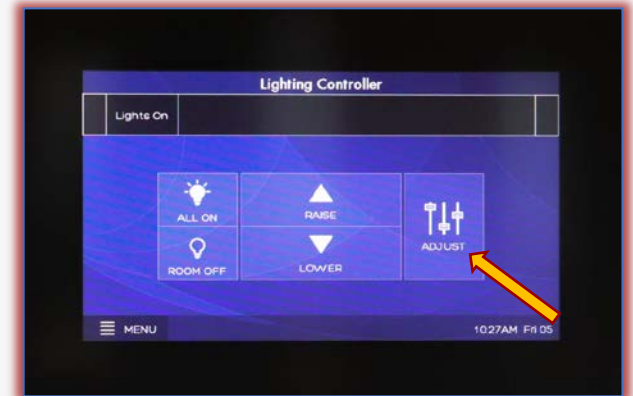

Adjust the individual lighting banks:

First - touch the fader icon labeled “ADJUST.”

Next - touch and hold the slider corresponding to the lighting bank you intend to dim/brighten.

Slowly, slide the virtual fader to your desired lighting intensity preference.

Touch “CLOSE” in the lower right corner to return to the home screen.

Rossier MIS Classroom A/V Support

In-Person Training and A/V Tech Support:

Hours:

- Monday through Friday - 9:00am until 5:00pm
